Description

- Adheres to low-stress cattle handling techniques
- Works with cattle psychology
- Sheeted panels allow the operator to utilize point of balance handling techniques
- Low 33.5" sheeting on the first panel and the additional exit panel, allowing cattle to see more light

- Crowd gate can be used to assist animals in the right direction, if necessary
- Crowd gate lock assists in sweeping so cattle are unable to push the gate back
- Rectangular tubing limits cattle bruising and injury
- Sheet metal is caulked to reduce noise
- High capacity
- Simple four-step assembly
- Durable clips connect the BudFlow® Cattle Tub with other Arrowquip products seamlessly
- 14-gauge steel sheeting
- Panels bolt together for structural integrity
- Powder-coated steel ensures long-term durability of the equipment
- Panels are stabilized by joiner bars connecting to the center of the cattle tub
- Rubber bushing on the crowd gate lock cushions impact to reduce metal clanging
- Panels are bolted together to eliminate metal rattling
- Center post features a rubber bumper to eliminate the gap between the post and back gate

Quantity: 1
